CELEBRATE NOVEMBER'S NATIONAL DAYS:

Today - On November 16th, food lovers get a dose of their favorite convenience food. Whether they use the drive-thru, dine-in, or get it to go, National Fast Food Day calls for us to grilled, fried, and broiled menu staples.

First popularized in the United States in the 1950s, fast food is considered any meal with low preparation time and served to a customer in a packaged form. The meal makes for quick dine-in, take-out or take-away. Most fast-food restaurants offer drive-thru service.

Merriam-Webster dictionary first recognized the term "fast food" in 1951.

The United States hosts the largest fast food industry in the world. American fast-food restaurants are located in over 100 countries.

Fun fact: The first Happy Meal was served in June of 1979.

While fast food began as sandwiches and sides, the menus expanded over time. Today fast food includes fish, a variety of fried chicken, tacos, pizza, and a wide selection of sides. Sodas quench the thirst and desserts sweeten the menu. From ice cream and shakes to pies and cakes, fast food delivers.

Tomorrow - Annually observed on the Wednesday during [American Education Week](#), National Education Support Professionals Day honors the contributions of school support employees. These support professionals provide invaluable services and are essential partners in a child's education.

The day honors a long list of professionals who keep schools running smoothly. They include all secretaries, classroom aides, cafeteria workers, maintenance workers, bus drivers, and the others who support educators, school leadership, and the students, too. These professionals do their part in making public schools exceptional for every child so they can be safe, learn, grow and achieve.

Thank you.

Remember...WE ARE WAPPINGERS !!
