File Sharing Using Mac OS 10.4 - Tiger (Notes)

Communications Lab Notes • Department of Technology Education • John Jay High School • Mr. Butler

Name: _____   Course: _____   Period:_____

Before File Sharing, **SAVE** your work, and **CLOSE** your files!

1) Choose **GO → CONNECT TO SERVER**

2) Choose **BROWSE** in the "Connect to Server" dialogue box

3) Choose **MY NETWORK** from the "My Network" dialogue box

4) Choose **JJ-167-TEACHER** from the list and then choose **CONNECT**

5) In the "Connect to Server" dialogue box, type:

> Name: *student*
> Password: *student*
> -Then choose **CONNECT**

6) Choose **STUDENT** from the selection list.

7) The Network Logo now appears on your desktop. **CLICK** the network logo icon to access the appropriate folders.

8) **OPEN** the **DESKTOP** folder and navigate to submit or share your work in your proper class, and project folder.

9) When you are finished, **THROW THE NETWORK ICON AWAY** in your trashcan (located in your dock), this will turn into an eject symbol.
