Wappingers Central School District

99 Myers Corners Road Wappingers Falls, NY 12590 (845) 298-5100 x 31213

OFFICE OF STUDENT SERVICES

Dear Parents:

<u>Please do not send medication of any kind to school with your child.</u> This includes all medication such as aspirin or any type you may obtain without a prescription. This not only applies to medication that may be taken by mouth, but any type that is applied to any area of the body. If a child arrives at school with medication, we are required to confiscate it and it will be the responsibility of the parent to claim it. Under certain unusual circumstances when it is necessary for a child to take medication at school, the school nurse may cooperate with the physician and the parents but <u>certain definite requirements must be met.</u> These standards are set up by New York State Educational Law.

All the following regulations must be met.

- 1. The School nurse must have a written order <u>signed by a physician</u> giving the following information:
 - A. Name of medication and possible side effects
 - B. Reason for giving it
 - C. Dosage
 - D. Time
 - E. Number of days
- 2. It must have a professional label (either drug store or drug company, if a proprietary).
- 3. It should be delivered directly to the school nurse by the parent.
- 4. The parent or guardian must submit a written request to the school nurse to give the medication as directed.

NEW PRESCRIPTIONS ARE REQUIRED AT THE BEGINNING OF EACH SCHOOL YEAR IN SEPTEMBER.

It is also the responsibility of the parent to come to the Health Office to obtain any unused medication. If unused medication is not picked up, it will be discarded seven days after the date of final dosage Medication that has been prescribed for a period extending to the end of the school year will be discarded on the last day of school in June if it has not been picked up.

If at any time the physician wishes to increase the dosage, s/he must submit this request in writing. <u>A verbal or telephone request from the parent or physician is not acceptable</u> from the standpoint of protection for the nurse and the school.

Medication in the care of children is a serious hazard and endangers the lives of other children.

If you have any questions or concerns, please call the school nurse.
