

Health and wellness tips for your work and life, presented by:

Your solution for a healthier workforce.

## Are You Getting Enough Water?

Making sure that you are getting enough water is a crucial step in achieving total wellness. Drinking water can eliminate hunger pains, aid the digestion process, and prevent and ease headaches. To help ensure that you are drinking enough water, consider the following guidelines:

- Always drink enough fluids so that you rarely feel thirsty.
- Make water your beverage of choice.
- Drink 2 liters of water or other beverages a day (a little more than 8 cups).
  - Men should consume 3 liters (about 13 cups) of water or liquids a day.
  - Women should consume 2.2 liters (about 9 cups) of water or liquids a day.

## 2 Chronic Conditions That Can Cause Cancer

New research suggests that nearly 6 percent of cancers (792,600 cancer cases) can be at least partly attributed to obesity and diabetes. The [study](#), which was published online on The Lancet Diabetes & Endocrinology website, states that diabetes and a high body mass index (greater than 25) are both associated with a higher risk of certain cancers and are increasing in prevalence.

Fortunately, Type 2 diabetes and obesity can be prevented with proper lifestyle changes, which include the following:

- Avoiding tobacco
- Exercising regularly
- Maintaining a healthy weight
- Eating a healthy diet and limiting your intake of unhealthy foods
- Managing your stress
- Regularly checking your cholesterol and blood pressure
- Visiting your doctor for routine preventive care

Implementing the above prevention tips can help you remain healthy and avoid developing chronic conditions like obesity and Type 2 diabetes, which, in turn, can help lower your risk of certain cancers. For more information, please review the full-text version of the [study](#).

## Mexican Chicken Soup

3 pounds chicken pieces (skin removed)  
2 cups tomatoes (chopped)  
1 clove garlic (minced)  
½ cup onion (chopped)  
¼ cup mild canned chilies (diced)  
2 cups canned pinto or garbanzo beans (drained)

### PREPARATIONS

1. Place chicken pieces in a large saucepan and add enough water to cover.
2. Cook until tender, about 25 minutes.
3. Remove chicken pieces from the broth.
4. Add tomatoes, garlic, onion and chilies.
5. Remove chicken meat from the bones and return meat to broth.
6. Add beans, and salt and pepper to taste. Simmer for about 15 minutes.

Makes: 6 servings

## A Common Cold Can Be Contagious for Longer Than You Think

The winter months are commonly associated with decreasing temperatures and increasing cases of the common cold. Typically, symptoms of the common cold come on gradually, and may start with a sore throat or irritated sinuses.

According to Healthline, when you have a cold, you're contagious approximately one to two days before symptoms start and can continue to be contagious for up to seven days after you've become sick. Unfortunately, many people can't stay home for that long of a time to fully recover. Consider the following suggestions to help avoid becoming ill or passing on a cold to a co-worker, friend or family member:

- Wash your hands with warm water and soap often.
- Avoid touching your eyes, mouth and nose.
- Sanitize commonly touched surfaces.
- Always cough and sneeze into your elbow—not your hands—to prevent spreading germs.

## IS IT A COLD OR THE FLU?
