

Dear Parents and Guardians of Mr. Pogemiller-Kermani's science students,

Welcome to Digital Learning! We are in uncharted territory of teaching and learning! We all want things to go back to "normal," however we want to stay healthy and keep others out there healthy. Stay home, stop the spread! Social distancing works and will flatten the curve!

Students will continue to learn despite the pandemic's reach on public life. Students will learn through online labs, recorded notes, online simulations, and online gizmos. Students will complete assignments on Google Docs and complete assessments through Google Forms. For the last couple of weeks, review materials have been posted to this Google Classroom.

Please encourage your student to complete the Check-In that was just posted to Google Classroom. This Check-In will allow me to account for whether my students are in attendance. Below are the Google Classroom codes for each class if you would like to join our classroom.

Period 1: [vmlfkez](#)

Period 2: [mzn5lhe](#)

Period 4: [67uqvwk](#)

Period 7: [45nyol2](#)

Period 9: [ahg6ivd](#)

I will be having Office Hours through the form of Google Meets on Tuesdays and Thursdays, 11:00 AM - 12:00 PM. A link to the Google Meets Office Hours will be shared through Google Classroom. Any student can join and just say hi or ask questions. I can also be reached by email at jeremy.kermani@wcsdny.org

We (Science 8 teachers) are moving forward in our curriculum. We will be posting weekly assignments that should be worked on and turned in. We are putting together some interesting and interactive work to allow students to learn the materials easily and have some fun!

If you are having issues with technology or do not have access to the Google Classroom, please let me know and we can work out a plan for your students to get the information in print form.

Stay healthy! Be in contact!

Sincerely,

Mr. Pogemiller-Kermani (Mr. PK)
