

Meal Storage and Heating Instructions

We hope you enjoy your meals! Please take a few moments to read the information below regarding storage and preparation of your meals.

All food requiring refrigeration need to be kept at a temperature of 41°F or below. Shelf-stable items should be stored at a temperature of 85°F or below.

Store food immediately in refrigerator or freezer until ready to heat and consume. Reheat to an internal temperature of 165°F and consume within two hours.

Please note: Since the type of products vary, and all microwaves and ovens vary in power, all cooking times are approximate and may need to be adjusted.
