

Recommendations Offered at Community Forum October 5, 2016

- Consider investing in dashboard cameras for the buses.
- Consider allowing students to leave school early if they have a sporting event to attend. Look at the number of students who would need to leave early.
- Look into ridership to see how many students are not taking the bus.
- Consider having the middle and high school students start at the middle school time (7:50 a.m.)
- Consider polling parents to see why they are picking up their child early from school.
- Consider posting preliminary transportation schedule with estimated times for a two-tier system.
