

Math Problem of the Week #10
Due Friday, January 14, 2011

Hello Animal Explorers,

This month we'll be traveling to Asia. The first country we're going to visit is China! The giant panda spends 10 to 16 hours a day eating 20 to 40 pounds of bamboo each day!

1. **Cut out the columns at the bottom of the page along the dotted lines, and put them into the addition puzzles below so that each column adds up to 10 without using the same number twice in one puzzle.**

 for every 4 answers +  for the last answer.

Untitled 1

2. **If a panda eats 40 pounds of bamboo during a 16 hour day how many pounds does he eat per hour?**

_____ pounds per hour.   

Safari Lottery #10

Circle either the panda or the bamboo shoot.

Whichever is picked the least will earn .
