

Math Problem of the Week #17
Due Friday, March 4th, 2011

Hello Animal Explorers,

This is the last week we'll be in Europe, and March 16th is when Irish people celebrate St. Patrick's Day, so we're going to Ireland this week. There's a legend that says that St. Patrick banished, (got rid of,) all of the snakes from Ireland. We're going to join this legend to the story of the Pied Piper who used music to get rid of a town's pests.

1. Using the code below, write the number each note in the puzzle represents into the math problem below. (Only one number per space.) 🐾

CODE

PUZZLE

___ + ___ + ___ + ___ =

2. Answer the math problem above then write the note that would represent that number on the staff after the four notes that are there. 🐾 🐾

Safari Lottery #17:

Circle either the snake or the g clef. Whichever is picked the least wins 🐾.
