Physical Therapist

To practice as a **physical therapist** in the U.S., you must earn a **doctor of physical therapy degree** from a Commission on Accreditation in Physical Therapy Education-accredited physical therapist education program and **pass a state licensure exam**.

Do I need to go to college?

100%

The length of professional DPT programs is typically three years. Approximately 80% of the DPT curriculum is classroom (didactic) and lab study and the remaining 20% is dedicated to clinical education. PT students spend on average 27.5 weeks in their final clinical experience.

Do I need to go to college?

Physical Therapy Assistant

All states require PTAs to have an Associate's degree from an accredited program, according to the BLS. Earning a degree may sound daunting, but some PTA training can be completed in **as few as 18 months**. This formal education consists of courses, lab work and clinical training.

CAN I WORK IN A PT OFFICE WITHOUT A COLLEGE DEGREE?

Physical Therapy Aides

Physical therapy aides are members of **physical therapy** support teams. Working under the supervision of **physical therapists** and **physical therapist assistants**, **P.T. aides** perform nonmedical tasks, such as setting up and cleaning treatment rooms and transporting patients to different areas of a health care facility. **Aides** usually **need** a high school diploma or equivalent and **can** expect to learn clinical skills on the job.

Regional Median Wage: \$ 33,666 18% Projected Job Growth

Aggressive Hiring Competition Over a Deep Supply of Regional Talent

Supply (Jobs)

Your area is a hotspot for this kind of talent. The national average for an area this size is 259* employees, while there are 381 here.

Compensation

The cost for talent is high in your area. The national median salary for Physical Therapy Aides is \$26,998, while you'll pay \$33,666 here.

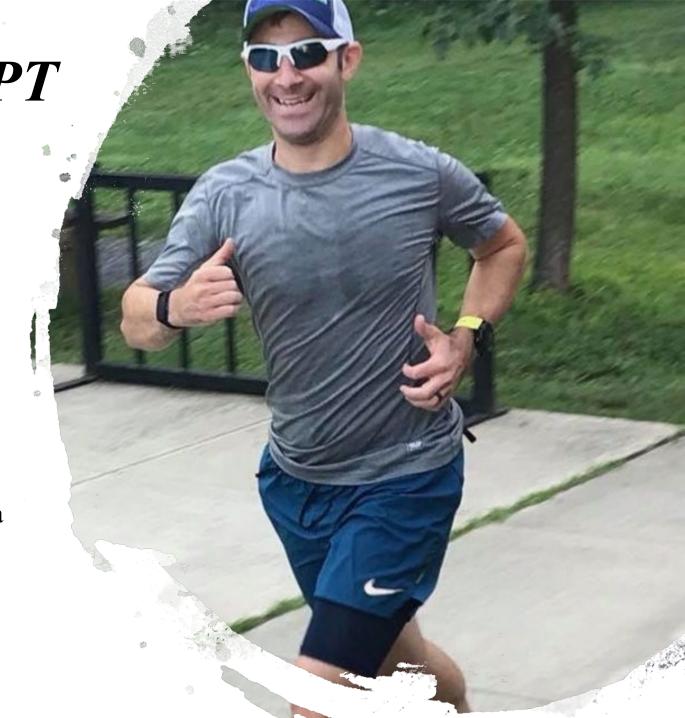

Do I need to go to college?

Justin Feldman, PT, DPT

Dr. Justin Feldman is the owner of Feldman Physical Therapy and Performance. Justin Feldman grew up in Lagrange, New York, graduating from Arlington High School in 2001. He received his Doctorate in Physical Therapy from <u>Ithaca College</u> in 2007. After practicing for five years in a traditional physical therapy practice, Justin made the decision to open Feldman Physical Therapy and Performance. Feldman Physical Therapy and Performance gives him the best opportunity to provide his patients with the high level of care and attention he feels they deserve. Justin is Titleist Performance Institute Certified, a Certified Functional Strength Coach, a Certified Speed and Agility Coach, a Certified Weightlifting Performance Coach as well as an Ironman Certified Coach.

He serves as an advisor to the Marist College Rowing Team, and teaches a weekly mobility class at Locomotive Crossfit in Beacon NY.

Student with us today:

Emily

- Worked in product development
- Went back to school for Physical Therapy
- Going to Columbia University

Q & A with DR. FELDMAN

What was your first job?

Lifeguard

What do you like best about being a Physical Therapist?

I think that my favorite part of being a PT is working with people who thought they couldn't be helped, and seeing them make gains and achieve stuff they didn't think was possible. Seeing people regain a belief in themselves is really powerful.

What is the first injury that you can remember?

Well, the first injury I remember was when I was 13 and had some vague stomach pain. Man, we tried everything to get that to go away, and eventually when they took out my appendix it did.

The first sports-related injury I can remember was in middle school and had really bad knee pain while running. Looking back, I'm not quite sure what was going on, but I can't tell you how many times when working with young athletes I cringe when I think about the exercises I was told to do. Straight leg raises, with ankle weights, and all sorts of stuff that we now know are not that helpful. The really crazy thing is that at that time, they were thought to be very helpful. The other crazy part is that it got better!

What made you want to become a Physical Therapist?

I have a few stories for this, first my mother had a few knee surgeries when I was growing up and I remember going with her to PT and thinking it seemed like a great way to spend the day. They all seemed happy, and they got to tell my mom what to do, what could be better. As I got older and got more into sports, it was clear that I was never going to be a professional athlete, but PT seemed like a great way to stay involved with sports forever.

What other professions would you choose if you were not a physical therapist?

I really love technology I know nothing about computer programming, but would love to be able to do that and learn to write code. I also really wish I was more creative. I love creating video and digital content for Feldman PT. I would enjoy being able to do that for other businesses, but with both of those, I would lose my mind being at a desk all day. Beyond that, I'm sure no one would be surprised to know that I'd love to spend my days working on the ski patrol if PT wasn't an option.

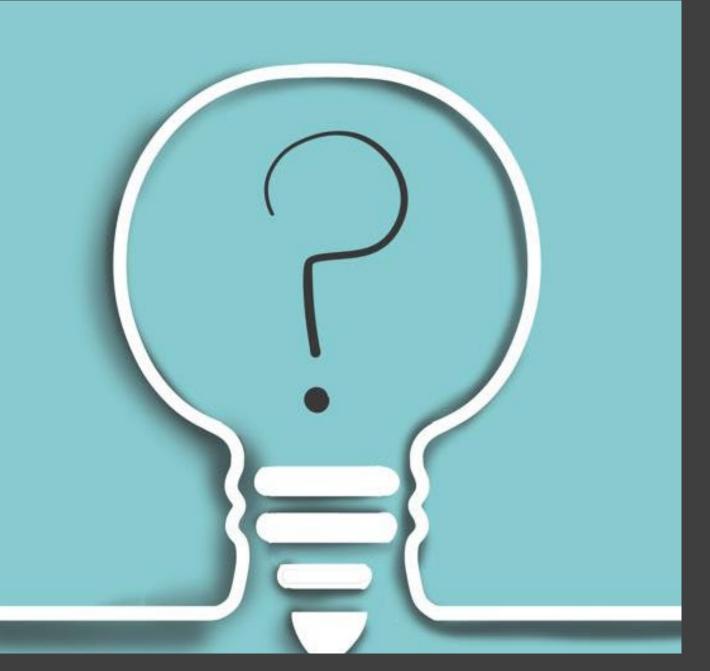

SCIENCE LAX PROGRAM (Liberal Arts Science)

Designed for the student who intends to transfer to a four-year institution to earn a baccalaureate degree in a natural or physical science. The program provides a broad background in the liberal arts and sciences. By appropriate selection of courses, a student may build a suitable background for further study in a senior college leading to the baccalaureate degree in biology, chemistry, environmental science and conservation, geology, health education or physics. The Associate in Science (A.S.) degree is awarded upon completion of the requirements for this program.

When to tune in?

Each month will include guest speakers from Health Care fields. Professionals will share about their experiences and answer the most frequently asked questions collected from the survey.

There will be time for a Question & Answer at the end of each session.

Mark your calendar! Every 3rd Wednesday of the month from 1:30-2:15 PM.

THANK YOU!
