

Math 7 Course Syllabus

Teacher:

Mr. Orlando, Room 130 nicholas.orlando@wcsdny.org

Ms. Santos, Room 130 suzanna.santos@wcsdny.org

Course Description:

We will spend time focusing on five important areas, or standards: (1) The number system; (2) Ratios and Proportions; (3) Expressions and Equations; (4) Geometry; and (5) Statistics and Probability. 7th grade is a fun grade level because the concepts that we will be learning about are very applicable to things that we see in the real world, and will not only help you in school, but also everyday life! I am looking forward to the opportunity to take this mathematical journey with you.

Required Materials For Math Class, in addition to the 7Green general supply list:

- 2 one-subject **spiral** notebooks
- 3 packages of #2 pencils
- Scientific calculator (optional). If you do not have a scientific calculator, we have a class set that students will have access to. There are online calculators available for homework use as well.

Assignments and Grading:

Grading will be done by percentages listed below. If any assignment is weighted heavier than listed below, the student will be notified ahead of time.

Type of Assignment	Points
Homework	20%
Participation	10%
Quizzes	35%
Tests/Projects	35%

Other:

- **Classwork:** Students are expected to participate in class via assignments, discussions, questions, etc...
- **Homework:** There will be homework most nights. Each homework assignment is worth 2 points. If homework is late, a point will be deducted, but can be handed in to get 1 out of 2 points. Absences will not result in lost points on homework.
- **Absent Policy:** Students are expected to make up all work when absent from class. There are absent folders in class where work can be picked up, and notes/homework will be posted on google classroom
- **Redo Policy:** Math is about growth; students will have opportunities to redo some assignments in order to demonstrate understanding of anything they may have missed the first time around.
- **Textbooks:** We will be using a digital version of our textbook, as well as PDFs of pages that we may work from. If any student wants a hard copy of the textbook to keep at home, all they have to do is ask.
